

**İlke Başak Baydar-150140709**

I am freshman (I hate this word, it's too masculine) at Istanbul Technical University. I am interested in algorithm and I hope I can improve myself in this field. I think that women are more creative in terms of complex problem solving ability and accordingly my goal is to study interdisciplinary in the field of engineering for gender equality.

**Address:** *Istanbul Technical University, Istanbul/Turkey*
